

Use of Alcohol Anti-Bacterial Gel/Sanitiser (at least 60%)

Hazard/ Activity	Persons at Risk	Risk	Control measures in use	Residual risk rating H / M / L	Further Action Required	
					YES	NO
Use of alcohol based anti-bacterial gel sanitiser	Staff Pupils	Accidental Consumption Incorrect use	<ul style="list-style-type: none"> • Use of alcohol-based hand sanitiser must only be used by staff and pupils when hot soap and water isn't readily accessible or to be used in between washing of hands where possible. • If Pupils are using the alcohol- based gel you must ensure they use it correctly and there are no religious beliefs which prevent them from using or medical problems such as sensitive skin conditions. • If the school has purchased the sanitisers they should have a safety data sheet and a risk assessment for the product. • If Pupils have been provided with the gel from Parents they must be informed to use it sensibly in the school setting (or to use only when arriving and leaving the school site) However you will not have to supply a safety data sheet as these have not been obtained direct from the school. 	L		✓
Sanitiser Stations	Staff Pupils Visitors	Fire	<ul style="list-style-type: none"> • The sanitiser should be kept in an area that can be seen by others • Keep the product away from strong sunlight and heat sources including any open flames • Do not smoke when using hand sanitiser • Spillages to be cleaned up immediately 	L		✓
Storage of Sanitisers	Staff Pupils	Fire	<ul style="list-style-type: none"> • The sanitisers must be stored in a well – ventilated area and kept cool at all times • Store upright and follow safety data sheet instructions. 	L		✓
